

Hilda Hiary

Hilda Hiary's work has evolved over the years, both in subject matter and style, moving continuously in and out of abstract and figurative works. However, throughout her journey, her voice has shined through in her characteristic strong lines and patterns, coupled with her bright color schemes. Hiary is never one to create a demure piece; her works are proud, confident, and command your attention. The artist has a knack for bringing in elements of abstraction, expressionism, pop art, and primitivism, creating a seamless blend for works that are beautiful and demanding. Strong and always full of emotion, her figures stare out through the pieces, creating a dialogue between the viewer and the piece. She believes in the transformative power of art, as long as the artist puts their message and philosophy into their work, delivering that message truthfully to viewers.
